

Vol 0 — Substrate Foundation — INDEX

The object, the five integers, the operator zoo, conservation laws, and the uniqueness chapter (Ch 9) whose eleven-criterion theorem is retired in favour of Spine Lecture 2.

Shelf: DERIVED CORE — legacy chapters (May 2026). Every chapter below carries a dated stamp (2026-09-11, K1892): either *corrected in place* at the sentences the presentation scan flagged, or *scan-clean* with its May tiers not re-verified line by line. Where a chapter and the Spine (`./Spine_DIV5_QM_GR_SM/`) disagree, the Spine is current; where the Spine and `notes/BST_AC_Theorem_Registry.md` disagree, the registry wins. This INDEX was generated 2026-09-13 (K1895) from the chapter files' own front matter; the volume had none before.

chapter	2026-09-11 status
Vol 0 Chapter 1 — D_IV ⁵ : The Geometry Underneath	scan-clean; May tiers
Vol 0 Chapter 2 — Five Integers and a Cap	scan-clean; May tiers
Vol 0 Chapter 3 — How the Substrate Operates	scan-clean; May tiers
Vol 0 Chapter 4 — The Isotropy Group: Where the Symmetries of Physics Come From	scan-clean; May tiers
Vol 0 Chapter 5 — Boundary Conditions	scan-clean; May tiers
Vol 0 Chapter 6 — The Integer Web	scan-clean; May tiers
Vol 0 Chapter 7 — The Operator Zoo	scan-clean; May tiers
Vol 0 Chapter 8 — Conservation Laws	corrected in place 2026-09-11
Vol 0 Chapter 9 — Strong-Uniqueness	corrected in place 2026-09-11
Vol 0 Chapter 10 — How the Team Works	scan-clean; May tiers
Curriculum_Vol0_Ch11_The_Operati on_v0_1.md	scan-clean; May tiers
Vol 0, Chapter 12 — Time, Derived	scan-clean; May tiers
Curriculum Vol 0 Architectural Scaffold v0.1 — Substrate Foundation	scan-clean; May tiers
